GRAIN COMES TO HOLD MORE CONTROL

Govt. Criticized For Not Doing
More to Take Over Terminal
Elevators

By Bulletin Leased Wire.

OTTAWA, March 13.—It is probable that the debate on the report on the National Transcontinental Railway will take place tomorrow, possibly Tuesday, Sir Wilfrid Laurier suggested that to the Premier this afternoon, and Mr. Borden replied that he would consult Hon. Dr. Field, attorney general of railways, and let the opposition leader know.

Announcement was made by Hon. Geo. E. Foster that the government would be introduced to give the grain commission more control of the grain trade from Fort William to the coast. Mr. Foster stated that at present the government has not taken control of this portion of the grain trade. There were private elevators, railway elevators, government elevators, and elevators owned by harbor commissioners. He had had a lot of much malpractice. It was desirable to give the government control of the grain trade, and a half million was voted for the purpose.

Foster stated that interior elevators to be constructed at Saskatoon, Moose Jaw and Calgary; a transfer elevator at British Columbia, and one elevator at Hudson Bay. The Saskatoon and Moose Jaw elevators are to be ready this season, and that in Calgary by 1915. The latter two will be later.

Hon. Frank Oliver criticized the government for not doing more in the direction of taking over terminal and interior elevators occupied the whole afternoon, and five and a half million was voted for the purpose.

ACTION TO GET MEXICAN WIVES RELEASED FROM PRISONERS

Habes Corpus Proceedings Instituted in Connection With
Fort Bliss Prisoner

THE WAR OFFICE TO OPPOSE APPLICATION

No Court Decision in the United
States to Serve as a
Precedent

By Bulletin Leased Wire.

WASHINGTON, March 13.—Native of the institution of habeas corpus proceedings to secure the release of the Mexican federal prisoners at Fort Bliss reached the war department today through a telegram from Gen. Bliss, at San Antonio.

Secretary Garrison was not taken by surprise because yesterday's news dispatches had stated that General Bliss, who is in direct control of the Mexicans, was endeavoring to prevent attorneys from reaching his charges to secure the signatures necessary for an application for a writ.

The department is expected to resist to the utmost the release of the prisoners at this time on the ground of public policy. It is held that the community would be injured by the release of several thousand homeless and unsheltered and unfed Mexicans.

The Mexicans are military prisoners, under the provisions of international law. There are said to be no court decisions in this country to serve as a precedent in the case.

RUTHENIANS TO CELEBRATE 100th ANNIVERSARY OF POET

Memory of Taras Shevchenko, Greatest Genius of People, Will Be Marked by Entertainment in Old Presbyterian Church on Saturday

Ruthenians will celebrate the 100th anniversary of the birth of their greatest poet and genius, Taras Shevchenko, with songs, recitations and speeches, in the hall of the Old Presbyterian Church tomorrow.
 Taras Shevchenko was the first of his people who rose to protest against Russian tyranny and serfdom. He was born on February 25, 1814, in the village of Kiriivka, in the Ukraine of Kiev, the son of a serf. Until he reached the age of 14 he lived in his native village, studying under Shcherbat, with whom he moved to St. Petersburg in 1832.
 In St. Petersburg, Shevchenko attracted the attention of the poet Zharov, who, with others, bought his freedom. He occupied himself with painting and poetry with success, but was called as a common soldier to the Asiatic frontier, where he spent ten years, forbidden to write or paint. In punishment for the publication of his poem "Kabusenka," in which he made an attack on the Russian government. Through the intervention of powerful friends, Shevchenko was pardoned, and in 1857 was permitted to return to St. Petersburg, under police supervision. He again commenced to write, but his health failed, and he died four years later in the Russian capital.
 The Ruthenians played an important part in the mediæval history of Europe. The territory which they occupied formed a wall which prevented the Mongolian horde from over-running Western Europe, and from the Caucasus to the Carpathian mountains, and including the northern portion of Russia and the southern part of Poland and Rumania, are known in Europe as "Little Rumania," and are regarded as a branch of the great Muscovite nation. Their warfare with the Mongols made it necessary for them to form voluntary cavalry corps, familiarly known as "Cossacks." Towards the end of the 19th century they became restless and began to demand a greater measure of freedom, and their revolt against Russian oppression and Austrian rule has drawn to them the attention of the European powers.
 "Kabusenka" a volume of lyrics which achieved great popularity, and which through its sympathetic feeling made the author the idol of his countrymen. His greatest masterpiece is "Mother-Servant," describing a mother's love for her child. In his historical novel he has been placed by a German critic on the same literary plane as Homer and Virgil.
 Shevchenko's funeral in St. Petersburg, in 1861, was made the occasion of a great public demonstration, and a mighty outcry, surrounded by a crowd, was raised over his remains, which he buried near his home, on the banks of the Dnieper. In fulfillment of his desire he expressed in the following poem, a translation of the original:
 "My grave and raise my marrow by the Dnieper-side;
 In Ukraine, my own land, a fair land with wide,
 I will lie and watch the cornfields, listen through the years,
 To the ever voice roaring, roaring in my ears.
 When I hear the call of the racing wind,

WAR WITH UNITED STATES UNTHINKABLE CALAMITY

Premier Asquith Says British Fleet to Panama Canal Opening Will Act as Messengers of Good-will.
 London, March 12.—From Asquith, in a speech at the dinner of the Associated Chambers of Commerce last night, in honoring United States Ambassador Page, said: "We are honored here tonight by the presence of the American ambassador. This year is the hundredth anniversary of the signing of the treaty of Ghent, and it will also witness what may be a red letter event in the calendar of international trade, the opening of the Panama Canal. The British fleet will be worthily represented on that occasion and our ships will set in American waters, not that they were one hundred years ago, as emblems of destruction, but as messengers of our abiding good-will to a nation between whom and ourselves war has become an unthinkable calamity."

GIVES FORTY SQUARE INCHES OF HIS SKIN TO SAVE MAN'S LIFE

John Broughton, Aged 32, Plays Part of Hero in Skin-Grafting Operation in Peg

OUTICLE TRANSFERRED TO MAN WHO WAS BURNED

Broughton Goes Through Ordeal With Remarkable Stoicism—Utters No Sound

Newark, N.J., March 12.—John Broughton, of Winnipeg, played the part of a hero in a skin grafting operation performed in St. James hospital here yesterday upon Joseph Larbert, 21 years old, of this city. Forty square inches of outicle were transferred to Larbert's abdomen, chest and arms. So far as can be learned, the operation, which concerned about three hours, appears successful. After the operation Broughton went to bed and it is expected that he will be out again within four weeks.

Larbert was taken to the hospital on October 13 last from the Cooper chemical works of this city. He was carrying a bottle of nitric acid when one of the men of the shop when the bottle broke. The man was almost instantly killed. The quick closing of his eyes saved his sight.

Filled to Head. Since the accident, parts of the burns have failed to heal despite the best medical attention, and it was to these unhealing parts that the surgeons determined upon the operation. Three days ago, the company for whom Larbert worked, advertised for a healthy man able to give up his appearance healthy in every respect, provided, however, he was the youngest, and the most likely to appreciate the operation, who is 21 years of age.

The young man was immediately placed on a diet, and prepared for the ordeal. He was taken over by the bedside of Larbert and Dr. Mitchell, with two assistants, began the operation.

With some Larbert's life. Section of outicle, a square inch in size, was peeled from Broughton's thigh down to the bone, the pieces were attached to Larbert. First the upper part of the abdomen was secured, the chest, and finally parts of the arms.

Each man went carefully during the operation. Though lying on their backs, they raised their heads and watched with keen interest the work of the doctors. Broughton went through the ordeal with remarkable stoicism. Not once while the skin was being cut from his thigh did he utter a sound. The operation will probably be the means of saving Larbert's life.

KING GUSTAVUS THE FIFTH, OF SWEDEN, AND HIS CONSORT

Considerable interest centres round the House of Sweden at the present moment—"The Kingdom of Sweden" has been the subject of a military mission—Crown Prince Gustavus, the King of Sweden, is in the north of Finland have been for much comment, and King Gustavus has stated his opinion on a certain system of policy with considerable vigor—in fact, these royal remarks have brought about a state of friction between the Parliament and the King, which doubtless in due course will be smoothed over. At the time of writing several thousands of troops and other students have been demonstrating their loyalty to the King in front of the palace in Stockholm.

Terry, vice president of the Westinghouse Electric and Manufacturing Company, and D. Undergar, director of the Westinghouse Air Brake Company.

The individual wealth and holdings of Mr. Westinghouse have been estimated at more than \$50,000,000. Mr. Westinghouse, who was in his sixty-sixth year, will be buried Saturday in Wood Lane Cemetery, which became the General's, Leamington and company.

AUDITOR'S CERTIFICATE

I, the undersigned, beg to report that I have audited the books and accounts of The Canada National Fire Insurance Company for the year ending 31st December, 1913, and have found them properly stated and sufficiently vouched. In my opinion the above balance sheet presents a correct view of the state of the Company's affairs as at 31st December, 1913, according to the best of my information and the explanations given me and as shown by the books of the Company.

I have examined the securities for loans in the hands of the Company, and compared them with the Mortgage Ledgers, and found them in agreement therewith. I have also inspected the various securities held by the Company which have been taken into the Balance Sheet at cost.

(Signed) D. A. PENDER, C.A. Auditor.
